

After more than a month, the retrospective video of our second Board of Beneficiaries in Athens, which took place on April 29th and 30th, is out! 🎥 It's a great way to see how everyone worked together to advance on the crucial task of testing and piloting six different use cases regarding EUDIW in a cross-border environment, through national digital identity wallets. A huge thanks to the 175 participants who were there on the big day! 🙌

Special thanks also to our speakers who performed interviews for this retrospective video:

Florent TOURNOIS, our coordinator

Moritz Heuberger, our technical coordinator

Thoke Graae Magnussen, a representative from the **European Commission**

Vilma Misiukoniene, our communication & dissemination lead

Panos Louridas, our Greek SPOC and host for the event

Thanks also to **GRNET - Greek Research & Technology Network** and **ERA Congresses & Events** for their invaluable help in preparing this important gathering! 🙏

Stay tuned as the entire interviews we performed with representatives from the **Potential** ecosystem will be appearing soon, both on this page and our Twitter page https://x.com/Potential_EU!

See you soon! 🙌

Board of Beneficiaries

29 & 30 April 2024

■ Athens, Greece
