Anirudh Singh

SDE-2 @ Trential | Ex-SDE-2 @ Internshala
Ghaziabad, Uttar Pradesh, India

Summary

As a full-stack developer, I enjoy building mobile and web
applications that solve real-world problems and create value for
users. I have a Bachelor of Technology in Computer Science from
Guru Gobind Singh Indraprastha University, where I honed my skills
in competitive programming, algorithms, and data structures.

I am currently working as a Software Development Engineer
at Internshala, where I collaborate with cross-functional teams
to design and implement new features and functionality for the
company's recruitment product. One of my notable achievements
has been integrating Leadsquared CRM with the product and
revamping the employer registration page, resulting in improved user
experience and conversion rates. I am also responsible for code
cleaning, optimizations, error fixes, and daily roadmap tasks. I am
excited to continue learning and growing in my career as a software
development engineer.
